National Water Supply Training Network (Satellite Training Centres, in-house training courses for State Water Agens staff) #26.7m Construction of Reference Lab for Kaduna #16m, Cost of completing Ref. Laboratory in Lagos #12m, Cost of constructing Enugu Regional lab #12n Construction of staff quarters in 4 (Regional) laboratories (Minna, Akure.) #20m, Laboratories running cost and 1. Construction of 2322 handpump at 3 boreholes per L.G.A #1.161m, 2. Training of 3870 LGA officers at 5 Nos per LGA #8.050m, 3. Monitorin and evaluation of water supply and sanitation programme nation-wide #90r 4. Special intervention for special circu Provision of water supply to some communities to commence in year 2001, Construction of treatment plant of 3400m3/hr together with necessary pumping stations, Limited electromechanical, limited trunk main to ensure limited water supply in 2001. To solve the perennial shortage of potable water supply, the option of drawing water from Bakolori dam to Gusau was considered the most feasib option. This will require the following: a. Part I: Connecting Gusau water scheme with Bakolori dam #5,75,900 - Construction of 5 Nos boreholes complete with submersible pumps and - Construction of staft and #8,575,900 Design and stup pipes. Construction Design and supervision; Development of ten artisan wells, Electrical and machanical installations. Development of surface water scheme, treatment; Construction of overhead tank and distribution. Drilling of 10 no. Boreholes, construction of pressure fitters and chaging clarifiers to R.C. relocation etc.
