CALL FOR TRAINING PROPOSAL ON BIOSTATISTICS AND DATA MANAGEMENT INCLUDING USE OF SOFTWARE

THE ASSOCIATION FOR REPRODUCTIVE AND FAMILY HEALTH (ARFH), a Principal Recipient (PR) under the Global Fund New Funding Model Tuberculosis grant; is currently seeking for competent international organizations to provide a detailed training proposal on data management including use of data analysis software. This training course is aimed at building the capacity of programme and Monitoring & Evaluation staff – a total of twenty five persons.

The successful training organization will combine expertise in epidemiology, biostatistics, analysis of programmatic data for decision making and applied research and must be able to pass on these skills through a well-designed, tailor made short course of not less than 2 weeks training curriculum. The training will provide participants with the advanced statistical analytic techniques and skills to improve data management processes, use data to inform policy and programmatic actions and planning for future program interventions.

Eligibility

To be eligible for consideration, interested organizations must be accredited academic institution with proven experience in TB and TB/HIV programs. The institution must provide the following details: a training proposal with details of the training curriculum and schedule of training; a budget proposal for the training course.

Application process

All electronic submission must be bear the reference code **DTM/ARFH/M&E Training-2017** and should be included on the subject title of the mail and the application letter. No hard copy or paper submission will be accepted. Send all applications and request for clarification to: training_TB@arfh-ng.org**.**

Full training proposals are due by **March 10**th **2017.** Applications received after this date will not be accepted. Detailed information on the request for proposal, the application procedure and selection criteria, can be accessed on the ARFH website on: www.arfh-ng.org/jobs
