

## Disposal of 6 Engenderhealth Vehicles

The Fistula Care plus (FC+) Project is a five years Project funded by USAID (United States Agency for International Development) and implemented by EngenderHealth. The Project is an off shoot from the former Fistula Care Project and it works to strengthen health system capacity for maternal health, fistula prevention, detection, treatment, and reintegration with an increased mandate to address pelvic organ prolapse and promote family planning. In Nigeria, the Project is Supporting Eleven (14) States of Ebonyi, Cross River, Zamfara, Kebbi, Sokoto, Kano, Katsina, Bauchi, Jigawa, Oyo, Kwara, Kaduna, Akwa-Ibom, and Plateau

The Fistula Care plus project in Nigeria is looking to dispose six vehicles. in the table below we have listed the vehicles we identified for disposal stating their current market value (please see attachment for details of valuation):
