

Modibbo Adama University of Technology, Yola

Expression of Interest for Technical and Financial Proposal for the University Master Plan

1.0 Background Information

The Modibbo Adama University of Technology was established in 1984 by the Federal Government of Nigeria to increase the requirements of manpower of this country relating to technological development, Since then the University has grown tremendously serving the needs of the country with courses ranging from Diploma to Doctorate degrees. The University is located on its permanent site along Maiduguri road at Sangere, after Bajabure industrial site. It currently has a total land area of 4320 Ha. In the past three years the University has experienced massive construction and development activities in line with expanding academic programmes and the rapid rise in students' population, it therefore anticipates this development trend to continue. In addition to this the University Campus already have several Buildings (Administrative Block, Academic facilities for to several Schools, Communal Facilities, Residential buildings, etc) end Infrastructural Facilities (Electricity, Water Reticulation, Road network), Commercial and Receptions) facilities (Sports Complex, Shopping complex), Students Hostels, that will require integration into the overall physical development of the University.

Our desire is to create a vision that is supported by policies, guidelines and priorities: and to guide the development and evolution of the University with a foresight into the next fifty (50) years.
