

Maternal, Newborn and Child Health Programme (MNCH2)

Expression of Interest (EOI) for MNCH2 Facility Assessment/Audit

The Maternal Newborn and Child Health Programme (MNCH2) is a UK government funded five year country led programme which aims to reduce maternal and child mortality in northern Nigeria. The programme, which runs from 2014 to 2019, is being implemented in six states in northern Nigeria namely Jigawa, Kaduna, Katsina, Kano, Yobe and Zamfara.

MNCH2 proposes to assess the status of healthcare facilities in terms of availability, accessibility, effectiveness and utilization of MNCH/RH services in the selected health facilities of supported states. Furthermore, the facility audit will focus on assessing the availability of personnel, infrastructure and equipment. The results of the assessment will provide important measures of MNCH/RH interventions to MNCH2 and its key stakeholders.

MNCH2 plans to implement the above work-streams through local institutions or research organizations and hereby invites interested institutions/organizations to apply.

To qualify, institutions or agencies must have the following skills/requirements;

- Fulfill all requirements to carry-out consultancy services in Nigeria
- Previously conducted similar health facility assessments
- Ability to carry out healthcare facility assessment, analyze and present findings in an agreeable format
- Ability to meet deliverables within the agreed timelines
- Willingness to work in programme implementation states
- Familiarity with the State and Local government health systems in Nigeria
- Excellent writing and presentation skills

Expression of interest should be sent to M-E@mnch2.com

Closing Date:

Closing date for submission is **6th February, 2015** and all EOIs must be submitted not later than **5.00pm** of that date.
