

## **Maternal, Newborn and Child Health Programme (MNCH2)**

### **Expression of Interest (EOI) for MNCH2 Facility Rehabilitation**

The Maternal Newborn and Child Health Programme (MNCH2) is a UK government funded five year country led programme which aims to reduce maternal and child mortality in northern Nigeria. The programme, which runs from 2014 to 2019, is being implemented in six states in northern Nigeria namely Jigawa, Kaduna, Katsina, Kano, Yobe and Zamfara.

MNCH2 proposes a facility rehabilitation strategy that is aimed at improving the structures of the health facilities for quality service delivery and to stimulate placement of high priority and adequate budgetary allocation for periodic maintenance of health facilities by stakeholders. This is expected in the long run to attract patients to access quality health care services.

MNCH2 plans to implement the above work-streams through local construction firms who will serve as the programme's consultants on construction and rehabilitation works and hereby invites interested firms to apply. To qualify, firms must have the following skills/requirements;

- Extensive knowledge and experience of construction in northern Nigeria
- Fulfill all requirements to carry-out construction consultancy services in Nigeria
- Capacity to produce designs, drawings and BOQs that relate to the needs of Health Facilities
- Produce good reports and ability to deliver assignment on tight deadlines
- Willingness to work in resource scarce environment
- Aware of and respect for the sensitive cultural and gender values of benefitting communities and the programme

**Expression of interest should be sent to [M-E@mnch2.com](mailto:M-E@mnch2.com)**

#### **Closing Date:**

Closing date for submission is **6<sup>th</sup> February, 2015** and all EOIs must be submitted not later than **5.00pm** of that date.
