

University of Lagos, Nigeria

Invitation for Pre-Qualification

Exercise Introduction

The University is desirous of constructing a modern state of the art Lecture Theatre with a 250 seating capacity for the Faculty of Engineering. The Theatre is a reinforced concrete structure to be built on existing pile foundations. On completion, the theatre is expected to be a perfect replica of an existing theatre located close by.

The Institution therefore invites reputable contractors with proven experience in complex reinforced concrete buildings to express interest to construct the under listed project:
