

**Rivers State Government of Nigeria**

**Greater Port Harcourt City Development Authority**

**Invitation to Tender the Construction of the New City Phase 1A: Interim Waste Water Treatment Works**

**(Contract / Tender No: GPHCDA/PP/IWWTW/PHASE 1A/2013)**

The Greater Port Harcourt City Development Authority (GPHCDA) has secured the necessary funds for the implementation of the Phase 1A: Interim Waste Water Treatment Works as a part of the first phase of the New City development and intends to apply a portion of these funds towards payments under contract for the implementation of the following works:

- The Interim Waste Water Treatment Works (IWWTW), which is the subject of this tender, is intended to provide a sewage treatment facility to serve Phase 1A of the New City development until such time as a permanent waste water treatment works is constructed at Ogbogoro.
- The works shall be of a package treatment plant type which can at a later stage be removed and reassembled at a new location.
- The initial sewage flow to be treated is estimated at 500kl per day, with the potential to increase the treatment capacity in further modular elements of 500kl per day increments.
- The maximum instantaneous flow to the works for purposes of the design of the treatment process must be not less than 3.75 times the average daily flow of 500kl per day.
- The works to be delivered shall include the following key elements:
  - A biological treatment process to treat the expected inflow to the works to the specified international standard for treated effluent.
  - All necessary instrumentation, mechanical and electrical works for the sustainable operation of the treatment process.
  - The civil, building and structural works necessary in order to accommodate and service the treatment plant.

- The installation, testing and commissioning of the treatment plan by the specialist original equipment supplier(s) and training of operational staff.
- The tender shall submit with his tender the proposed construction work plan indicating in sufficient detail all key activities and processes in such a manner as to meet the scheduled time for completion of the works.
- The allowable construction period for completion of the above works and all ancillary items is nine (9) calendar months.

GPHCDA now invites eligible tenders to submit sealed bids in accordance with the published tender procedures for the construction of the above works.

The tender process will be conducted by way of an open competitive tender procedure in accordance with the Rivers State Public Procurement Law 4 of 2008, and is open to local, national and international tenders.
