

Nigerian Agip Exploration Limited (NAE)

Public Workshop on Nigerian Content for Zabazaba Development Project- FPSO EPCI PACKAGE

(1) Introduction and Objective

Nigerian Agip Exploration Limited (NAE) (hereafter Company), Operator of the OPL 245 is organizing in conjunction with the Nigerian Content Development and Monitoring Board (NCDMB) (hereafter the Board) a three (3) day public workshop for interested Nigerian Service providers, suppliers and OEM representatives, vendors and manufacturers based in Nigeria, supplier trade umbrella/ associations and any other reputable provider of products and services to the Nigerian oil and gas industry.

The workshop is being organized in accordance with the provisions of the NOGICD Act to sensitize the general public on the high-level Nigerian Content Plan associated with the main facilities of the Zabazaba and Etan Deepwater integrated project. In addition, it will provide a platform for local companies to interact with international service providers who are prospective EPCI tenderers for the following works/services; Engineering, Procurement, Construction & Installation (EPCI) + Chartering, Operation & Maintenance for a Floating Production Storage and Offloading (FPSO) Tanker Facility Complete with Mooring System.

Company hereby invites for the three (3) day workshop, representatives of relevant Government Agencies and Regulatory Authorities (Federal Ministry of Environment, DPR, NIMASA, Nigerian Custom Service, Nigerian Navy Service, NPA, NEPZA, Nigerian Shippers Council, FIRS, etc.). Similarly, Company also requests for expressions of interest to participate in the workshop from Nigerian service companies, local manufacturers, vendors/suppliers, and other supplier stakeholders in the Nigerian Oil & Gas Industry (e.g. PETAN, NCCF, MAN, etc.) wishing to attend this three (3) day workshop with the International Service Providers, to present their available in-country capabilities and exhibit their expertise under the services scope with a view to forming synergies/alliances with the FPSO providers for the delivery of one or more modules, products and services of the FPSO systems.

The Nigerian Content Opportunities for the FPSO Work Package include but shall not be limited to the following;

- Project Management/Consulting Services
- Detailed Engineering on Deep Offshore Facilities (Topsides, Hull and LQ, Mooring, HVAC), Fabrication & Construction Engineering, Integration Engineering,
- Installation Engineering, Maintenance and Inspection Engineering, Pre-commissioning/Commissioning Engineering, etc.
- Materials and Procurement
