Request for Expression of Interest for Engineering, Procurement & Construction (EPC) Contract for the Replacement of Fire Hydrant Ring Main at Escravos Terminal

Introduction

The Pipelines and Products Marketing Company Limited (PPMC) intends to carry out the Replacement of Fire Hydrant Ring Main at Escravos Terminal with HPPE pipes.

Escravos Terminal is a crude oil storage facility that is vital to NNPC/PPMC operations. Hence the need to ensure compliance with Industrial Safety Standard is necessary.

Fire Hydrant Ring Main is a pipeline network and other accessories that transport water for fire-fighting operation. The need to upgrade the facility is to avoid unexpected failure due to severe corrosion damage on the entire hydrant line caused by sea water being the source of water at the terminal, particularly at the critical points such as the weld joints, fittings and valves.

(2.0) Purpose of the Project

In view of the need to sustain high pressure, high volume during fire-fighting intervention and ensure compliance with Industrial Safety Standard, it is necessary to replace the Fire Hydrant Ring Main for effective fire-fighting capability at Escravos Terminal.
