

**Friends for Global
Health Initiative in Nigeria
Request for Expression of Interest (EOI) from Prospective Information and
Communication Technology Firms in Respect of Design and Development of
Electronic Health Management Record System (EMRS)**

Friends in Global Health Initiative in Nigeria (FGHiN) is a Non-Governmental, Not for Profit organization working in Partnership with donor agency in the field of public health.

To further her mandate in the strengthening of health through Health information system, FGHiN is seeking competent companies that will design and- develop a web based electronic medical records system for use in Hospital facilities.

FGHiN has effectively implemented an MS- Excel based EMR spreadsheet with some level of complexity in dynamic query and customization of reports, FGHiN in moving forward based on lessons learnt and recommendations by CDC Nigeria intends to transform this spreadsheet across all its supported sites to an SQL based EMR system that will communicate at both front and back ends with the National DHIS system.

Scope: Features of the EMRS

- (a) To provide FGHiN with an integrated EMR platform using open source technology capable of communicating with the National District Health Information System (DHIS) framework and can upload data seamlessly onto the National Data Repository
- (b) To provide basic demographic and clinical health information
- (c) To provide Clinical Order entry and prescribing
- (d) Accepting patient orders
- (e) Order and administration of drugs
- (f) Managing referral orders
- (g) Health Information and reporting

- (h) Secure and confidential and exchange of electronic information
- (i) Web based using SQL
- (j) User friendly and Secure offline data storage
- (k) Reports customization including data input from remote sites using SMS enabled smart phones
- (l) Schedule notification to client and CSSP (SMS)
- (m) OCR data capture functionality
- (n) Access control
