

## **Clinton Health Access Initiative**

### **Request for Proposals**

### **Logistics support for training and clinical attachment on Maternal and Newborn Health for health care workers in primary health centres (PHCs)**

**Tender Ref:** CHAIMNH/MENT 001

#### **Introduction;**

The Clinton health Access Initiative (CHAI) invites interested and capable organizations to submit proposals for the provision of logistics support for healthcare worker training events and clinical attachment in the following states: Kano, Kaduna and Katsina. If you decide to submit your proposal in response to this RPP, please send your electronic proposal for the attention of [fabdullahi@clintonhealthaccess.org](mailto:fabdullahi@clintonhealthaccess.org), copied to [ofasawe@clintonhealthaccess.org](mailto:ofasawe@clintonhealthaccess.org)

#### **Background:**

Maternal and neonatal mortality rank among the most important of causes of avoidable deaths globally. About 99% of maternal deaths occur in developing countries with Nigeria being the second largest contributor behind India with a maternal mortality ratio of 576 per 100,000 live births. Simple and known interventions can prevent most of these deaths and dramatically improve maternal and neonatal health overall. Solving maternal and newborn mortality requires better management and organization of the health system as it relates to pregnant women, at the birth process and the creation of a proper mentoring system.

#### **Objective**

Implement a mentoring approach which will be used to train HCWs on the early identification of maternal and newborn complications, immediate life-saving actions and prompt referral to the nearest hospital for advanced care.

#### **Scope of Work:**

- (i) Logistics Planning
- (ii) Event Management Support
- (iii) Training impact assessment

- (iv) Creation of trainee database
- (v) Coordination
- (vi) Monitoring and Reporting
- (vii) Resources management
