The scope of work shall include but will not be limited to the provision of the following services:

- Full suite advanced Mud Logging Services (equipment and personnel)
- Real time pore pressure prediction (Prevue)
- Formation sampling and analysis
- Handling of sidewall samples with lithological descriptions and show evaluation
- Gas detection, analysis and evaluation
- Continuous drilling and mud parameter recording on remote computer monitor
- Continuous monitoring of deified cuttings evacuation from wellbore
- Detection of abnormal pressures or trends.
- Presentation of charts containing drilling activity parameter, geological description and gas records, as well as the over-pressure detection logs.
- Preparation of master log plots and reports
- Formation Evaluation Services
- Data Monitoring Services

- Suitable qualified and competent personnel in support of the above operations
- Real Time transmission of parameters captured and displayed in items above in WITSO or WITSML format

3.0 Mandatory Requirements

To be eligible for this exercise interested Tenderers are required to be prequalified in the Product/Service Category 30407: **Mud Logging** Category A-D in the NipeX Joint Qualification System (NJQS) database. All successfully pre-qualified suppliers in this category will receive a Technical Invitation to Tender (ITT)

- To determine if you are pre-qualified and to view the product/service category you are listed for, log on to www.nipexng.com and access the NJQS with your log in details, click on “Continue to Joint Qualification

Scheme tool”, click on “check my supplier status” and then click “Supplier product group”.

- If you are not listed in a product/service category, you are registered with the Department of Petroleum Resources (DPR) to do business. Contact the NipeX office at 30, Oyinkan Abayomi Street, Ikoyi, Lagos with your DPR certificate as evidence for verification and necessary update.
- To initiate the NJQS prequalification process, access www.nipexng.com to download the application form, make necessary payments and contact the NipeX office for further action.
- To be eligible, all tenders must comply with the Nigerian Content requirements in the NipeX system.

4.0 Nigerian Content Requirements

Tenderers are to note that they will be requested during the technical tender to give full details of their relevant strategy to ensure that they fully comply with the Nigerian Oil & Gas Industry Content Development (NOGICD) Act, 2010 as non-compliance will constitute a FATAL FLAW in all tender evaluations. In line with the above, Tenderers will be required to ensure that information on the following, among others, is included in their technical submission:

- Demonstrate that the entity is a Nigerian Registered Company, or genuine alliance or joint venture with foreign company with details on scope and responsibilities of parties for this work. Such companies must show evidence of joint venture binding agreement duly signed by the CEO of both companies including evidence or plans of physical operational presence and set-up in Nigeria

- International or multinational companies working through a Nigerian subsidiary must demonstrate that a minimum 50% of equipment to be deployed for execution of work shall be owned by the Nigerian subsidiary by providing a list of equipment for this tender and indicating those that will be owned by the Nigerian subsidiary
- Furnish details of company ownership and share holding structure. Also submit dear photocopies of your CAC Forms C02 and C07
- Provide evidence of what percentage of your key management positions is held by Nigerians and what percentage of the total work force are Nigerians. Also, show overall percentage of work to be performed in Nigeria and those by Nigerian resources relative to total work volume.
- Provide a Nigerian Content Plan detailing a description of the role, work scope, man-hours and responsibilities of all Nigerian companies and personnel that would be involved in executing the work. This should include details of Nigerian Content focal point or manager
- State proposed total scope of work to be conducted by Nigerian personnel (whether contracted directly or under subcontract agreements) with names and addresses including evidences of well equipped offices and workshop; attach past experience of such patronage
- Specific to this project, provide detailed plan for human capacity building of the National skill pool on the project-specific courses as stated in the ITT (including all software to be used, number of personnel, name of organization providing such training and evidence of past training record) for Nigerian personnel including description of any specific programs in place for transfer of technology and skills to indigenous businesses and Nigerians over the next five (5) years.
