

Star Deep Water Petroleum Limited

A Chevron Company

Operator of the Agbami Unit (OML 127/128)

Tender Opportunity Provision of Subsea Intervention Vessel in Support of Deepwater Operations

Introduction:

Star Deep Water Petroleum Limited (Star), a Chevron company and operator of the Agbami field on behalf of the partners (FAMFA Oil, Statoil, Petrobras and NNPC), invites interested companies with relevant experience to apply for pre-qualification for the provision of a Multifunction Intervention vessel for the repair, maintenance and inspection of subsea equipment to support the intervention/ well construction activities in the Agbami Field which is in 2,000 meters of water and about 110Km offshore Nigeria. The contract is proposed to commence in 4th quarter of 2014 for three (3) year duration.

Scope of Work

The scope of this contract shall include, but not limited to, supply of Subsea Intervention Vessel with DP2 system, certified to an appropriate classification society, with the following capabilities:

- Installation of Subsea equipment with Active Heave-compensated crane with minimum capacity of 150 tonnes.
- Minimum deck space of 1000 square meters, capable of landing Agbami Subsea trees weighing over 60 tonnes.
- Capacity to remain on station for at least 1 (one) month between re-supply cycles.
- Capacity to work on equipment and operate 2 work class ROVs in 2,000 meters of water depth.
- Accommodation on board for 24- hour operation and 50 (fifty) company staff.
- Helicopter landing pad sufficient to accommodate a Sikorsky S92.
- Safely and life-saving equipment meeting all current SOLAS requirements

Additionally contractor will have the capability to support marine inspection repair and maintenance activities on all subsea equipment (such as trees, manifolds, flowlines, jumpers, and flying leads), and FPSO hull and mooring lines. Where anomalies are

identified, Subsea Engineering support shall be able to assess the activities and procedures to safely and efficiently repair all subsea equipment. This excludes well bore intervention. Engineering support shall also be capable of defining and executing construction support activities for new Christmas tree installations as well as flexible jumpers to tie back to manifolds. Contractor will be required to have proven Simultaneous Operations experience.
