

Star Deep Water Petroleum Limited

A Chevron Company

Tender Opportunity

Provision of Remote Operating Vehicle (ROV) and Services to Support Deepwater Drilling and Completion Operations

Introduction:

Star Deep Water Petroleum Limited invites interested and prequalified companies for this tender opportunity for the Provision of Remote Operating Vehicle (ROV) Equipment and Services to Support Deep Water Petroleum Limited.

Scope of Work

The scope of work for the services includes but not limited to the following:

- Interested Applicants must be able to provide equipment and personnel for operation of 1 (one) work class ROV System. A complete ROV system is required for performing safe and competent operations. The work to be carried out will typically involve
- Assistance with standard deepwater subsea drilling operations and installation of well equipment during drilling operations including:
 - Ø Visual observation.
 - Ø Monitoring of currents.
 - Ø Grinding and cutting operations of rope, nylon slings and wire rope.

- Ø BOP/LMRP intervention activities- high flow hot stab operations to match rig's BOP receptacles with pump flow rate greater than or equal to 10 gallons per minute.
- Ø Transponder installation and recovery.
- Ø Jetting operation with seawater.
- Ø Cleaning ring gasket surfaces (Wellhead cleaning tool to be quoted as optional equipment by ROV CONTRACTOR if required by COMPANY/CONTRACTOR).
- Ø AX/VX or other seal installation and/or replacement.
- Ø Pumping of corrosion inhibitors (under wellhead TA cap) and pumping glycol and methanol into BOP connectors.
- Ø Digital still photography (Digital Stills Camera to be quoted as optional equipment by ROV CONTRACTOR if required by COMPANY CONTRACTOR)
- Ø Debris recovery
- Ø Determine position of subsea equipment and position markers to allow setting wellheads within required position tolerance.
- Assistance with installation, inspection, repair and maintenance of subsea facilities, including:
 - Ø Observation and guidance of tree, TRRT, BOP and jumper during installation and retrieval operations
 - Ø Observation of tree, TRRT, BOP and jumper connector lock/unlock positions
 - Ø Observation and recording of valve functions during tree testing with IWOCS and from production controls
 - Ø Installation and retrieval of transponders
 - Ø Ambient water jetting operations for cleaning
 - Ø Wellhead, BOP and vertical connector gasket replacement
 - Ø Sonar for Subsea obstruction detection and well as shallow gas monitoring during the top hole operations.
 - Ø Connect/disconnect buoyancy modules

- Ø Verify orientation and inclination of installed equipment
- Ø Connect/disconnect and parking of IWOCS electrical and hydraulic flying leads
- Ø Lock/unlock tree connector using hostab Pressure testing of tree gasket using hostab
- Ø Injection of chemicals using s hostab
- Ø Installation and removal of debris caps on wellhead, tree REH and vertical connection hubs
- Installation and removal of pressure retaining caps on vertical connection hubs
- Ø Function of low torque tree valves using a manipulator
- Ø Ability to deploy rotary and linear override ROV tools for tree valve intervention using a manipulator arm
- Ø Ability to carry under-slung chemical injection/pressure test skids
- Ø Assist with installation and retrieval of choke inserts and SCMs
- Ø Ability to measure and record electrical potential between components of the subsea system after installation
- Ø General inspection and maintenance operations, Video recording and still photography
- Ø All equipment, operations and procedures shall, where required, comply with current national legislation, guidelines and regulations.

Mandatory Tender Requirements:

1. To be eligible for this tender exercise, interested bidders are required to be pre – qualified in the 3.04.99 (Other Drilling Services) category in NipeX Joint Qualification System (NJQS) database. All successfully pre-qualified suppliers in this category by the bid close date will receive Invitation to Technical Tender (ITT).
2. Please note that interested bidders including their sub-contractor(s) shall be required to:
 1. Meet all JQS mandatory requirements to be listed as “**Prequalified**” for a category in the JQS database.
