

Star Deep Water Petroleum Limited (SDWPL)

A Chevron Company

Operator of the Agbami Unit (OML 127/128)

Tender Opportunity; Provision of Cement Products and Services

NipeX Tender No – 2200135

Introduction

Star Deep Water Petroleum Limited (SDWPL) invites interested and prequalified companies to this tender opportunity for the provision of cementing products and services to support SDWPL's deep water drilling and completion operations. The proposed contract term is two (2) years with an option of one (1) year extension at the same rate, terms and conditions.

Scope of Work/Service Requirements

The scope of work for the services includes, but is not limited to, the following:

(A) Personnel, equipment, materials, and deliverables for the provision of cementing and related services in support of SDWPL's operations. As a minimum, the selected contractor shall be responsible for the supply and provision of:

- (1.1) Cementing services;
- (1.2) Cementing equipment or systems;
- (1.3) Cementing products or materials;
- (1.4) Consumables;
- (1.5) Other related equipment and personnel

(A) The selected contractor shall provide the facilities and pumping equipment in SDWPL's operational bases.

(B) The selected contractor shall provide equipment required to support a full line of oilfield cementing operations. Equipment includes but is not limited to batch mixers, cement pumping units, bulk tanks and air compressors, casing accessories, etc. Operations shall include but not limited to casing cementing, squeezing, plugging, and acidizing. The selected contractor shall supply a full line of products (cement, chemicals and other additives) to support these operations.

(C) The selected contractor shall have full 24 hour cement lab facilities with the capability to run multiple slurry tests simultaneously which will include security and back-up utilities. The selected contractor shall provide highly experienced personnel or representatives to plan, provide cement engineering services, collaborate with SDWPL's engineers, coordinate materials and equipment, coordinate laboratory testing, and provide concise reports on lessons learned and best practices on a seven (7) day per week basis.

(D) The selected contractor shall provide field personnel capable of checking the status of job-readiness, setting-up, and shop testing tools/equipment prior to shipment to the rig, coordinating materials and equipment movements, and executing the job on location.

(E) The selected contractor shall provide field personnel capable of checking the status of job-readiness, setting-up, and shop testing tools/equipment prior to shipment to the rig, coordinating materials and equipment movements, and executing the job on location.
