

Invitation to Tender

The Science of Improving Lives

FHI is a global health and development organization whose rigorous, science-based approach builds programs that create lasting change. Founded in 1971, FHI maintains offices and staff worldwide, helping to forge strong local relationships required to make measurable progress against disease, poverty, and inequity-improving lives for millions. In Nigeria, FHI is currently engaged in providing public health services and in undertaking research in HIV/AIDS, tuberculosis, malaria, and reproductive health in partnership with the Government of Nigeria, and with funding from the United States aid programs, the Global Fund and private foundations and corporations. In order to improve infrastructural support for the rapidly expanding services in the country, FHI is inviting interested vendors to tender for the supply of one unit of electricity diesel generator, which will be installed in the country office in Abuja.
