

Maternal, New-Born and Child Health Programme (MNCH2)

Expression of Interest (EOI) for MNCH2 Facility Assessment

The Maternal Newborn and Child Health Programme (MNCH2) is a UK government funded five year country led programme that aims to reduce maternal and child mortality in northern Nigeria. The programme, which runs from 2014 to 2019, is currently being implemented in six states in northern Nigeria namely Jigawa, Kaduna, Katsina, Kano, Yobe and Zamfara.

MNCH2 proposes to assess the status of healthcare facilities in the states, where it currently supports service delivery with the view of strengthening these facilities to meet minimum standard requirements for health care delivery. This is to ensure that the health facilities are upgraded to deliver the range of expected health services.

MNCH2 plans to implement the above work-streams through local institutions or research organizations.

The programme, hereby invites interested institutions/organizations to apply.

To qualify for the assessment, prospective institutions or research organizations must have the following skills/requirements;

- Fulfill all requirements to carry-out consultancy services in Nigeria
- Previously conducted similar health facility assessment
- Ability to carry out assessments, analyze and present findings in an agreeable format
- Ability to meet deliverables within the agreed timelines
- Willingness to work in programme implementation states
- Familiarity with the State and Local government health systems
- Excellent writing and presentation skills

Expression of interest should be sent to research@mnch2.com

Closing date for submission is **28th July 2016** and all EOI must be submitted **not later than 5.00pm of that date, 28th July 2016.**
